Choice Hotels International Celebrates Earth Day with Exclusive Free Song Download Offer

Choice to give up to \$10,000 to The Nature Conservancy Based on the Number of Times Consumers Download the Song "Big Planet"

PRNewswire-FirstCall SILVER SPRING, Md.

Worldwide lodging franchisor Choice Hotels International, Inc. will celebrate Earth Day on April 22, 2010, by offering exclusive access to and complimentary download of "Big Planet" by award-winning singer, composer and songwriter Billy White Acre. Each time the song is downloaded within a 24-hour period from noon EDT on April 22, 2010 until noon EDT on April 23, 2010, Choice will give \$1, up to a total of \$10,000, to The Nature Conservancy.

Billy White Acre's career as a songwriter, composer and performer has garnered numerous awards, including Southern California's Guitarist of the Year, First Place (ROCK) in Billboard Magazine's Annual Song Contest, Best Film Score and Sound Design for the film Cookers at the Milan International Film Festival, and Best Independent Release at the Los Angeles Music Awards for his album Billy's Not Bitter. His songs have been featured in dozens of films and television shows.

"I am delighted to have Choice Hotels exclusively offer my song 'Big Planet' as a free download on Earth Day 2010," said White Acre. "I wrote 'Big Planet' to help raise awareness for the vital need to protect our home, so I love what Choice Hotels is doing to minimize carbon footprints, as well as the generous contribution they are making to support The Nature Conservancy. I hope everyone really enjoys our song and uses it as a reminder that we all have a responsibility to protect local communities and our Big Planet."

In February 2009, Choice Hotels also launched the optional property-level Room to be Green program by challenging its franchise hotel owners to take some modest first steps towards a more environmentally-responsible and sustainable future. The goals of the program are simple: Reduce property-level environmental impact and waste through best practices in order to reduce the environmental impact and operational costs, as well as meet the changing expectations of today's eco-conscious guests.
