

Cambria Suites Properties Ranked in Top 10 of their Markets **TripAdvisor rankings reveal that the upscale all-suites brand is a customer favorite**

PRNewswire
SILVER SPRING, Md.

Cambria Suites announced today that 95 percent of its 21 open properties are among the Top 10 hotels in their market, as ranked by TripAdvisor, the most popular and largest online travel community. In addition, nearly 67 percent of the hotels are ranked No. 1 or No. 2 in their markets.

Using a proprietary algorithm, the TripAdvisor Popularity Index incorporates traveler ratings to determine traveler satisfaction based on the most recent information, measured by both quantity and quality of content written about the hotel. TripAdvisor's Popularity Index is unbiased, completely organic and does not use paid results to influence rankings.

While these rankings change daily, they show that consumers are embracing the all-suites hotel brand in each of these markets. Customer reviews are a primary driver of hotel stays, and Cambria Suites is excited to see that guests are enjoying their stays, and sharing their positive experiences via social media channels.

"Customer satisfaction is the most important indicator of success for our business," explained Kevin J. Lewis, president, Cambria Suites. "It's rewarding to see that our hard work is paying off when we see extraordinary rankings such as these. We will continue to put our customers first, and we hope that they will continue to rank us at the top in each of our markets."
