

Upscale Premiere: Opening of Germany's first Ascend Hotel

The Hotel Hirschen Freiburg is the first hotel in Germany to become a member of the expanding Ascend Hotel Collection, a global soft brand from Choice Hotels. Choice is expanding its German portfolio, which already includes the Comfort, Quality and Clarion brands. The Ascend Hotel Collection soft brand was founded in 2008 and currently operates approximately 50 hotels in Europe. A second hotel in Cologne is also scheduled to open soon.

The Hotel Hirschen has, for many years, been a part of the Choice Hotels brand family as a Clarion Hotel. The hotel is located in one of Germany's most sought-after holiday destinations, the Black Forest in Southern Germany. It offers the perfect starting point to explore the region between Germany, France and Switzerland, which is well known internationally for its countryside, cultural highlights and the high density of gourmet restaurants. In 2017, tourism professionals registered a total of 40 million overnight stays in the region. The upgrade to the country's first Ascend Hotel Collection hotel was made after extensive renovations to the property's 70 rooms and suites as well as the public areas. At the same time, it marks a change in management from one generation of the Baumgarten family to the next. Elias Baumgartner follows in the footsteps of his father, Werner Baumgartner, who served as the hotel's most recent managing director. The traditional hotel has now been managed by a member of the Baumgartner family for seven generations.

Elias Baumgartner added, "Ascend gives us the opportunity to be part of a global sales system while at the same time having the flexibility to design our offerings, which is especially important for us as hosts and individual hotel operators."
